

# Processing Assignment

Directions: After learning everything about Native Americans and Pilgrims we have learned that they had a significant contribution to their time period and to our modern day. Create a statement explaining what you will do to make your community a better place and what contribution you can make towards it. Can be anything, helping a family in need by donating clothes, food, etc. or recycling, anything that you feels would make a change in the community.

I, \_\_\_\_\_ will make my community  
a better place

## **Essential Question Alignment:**

### **Chapter 8:**

- What is our economic responsibility to our neighbors in need? What is a community's economic responsibility to its neediest citizens?

This essential question connects to the processing assignment, because students will have a connection to the real world and apply what they learned from the unit to their own life and their community around them. They will understand what they have to do as part of their community to help their neighbors in need, whether it be through donations or even recycling.

### **Common Core Alignment:**

- **Writing Standards:** Create and present a poem, dramatization, art work, or personal response to a particular author or theme studied in class, with support as needed for Grade 1

This common core aspect connects to this processing assignment, because students will be applying their own personal reflection towards this assignment. It will be unique for each and every student in the classroom and reflect what they have learned and their own ideas and feelings towards their community and neighbors. They will also be creating this assignment with as much support needed from their teacher.
